Agenda:

The Ecosystem-Based Fishery Management (EBFM) Committee and Advisory Panel Chairs will meet to review initial simulations and sample output from the Prototype Management Strategy Evaluation (pMSE). The simulations apply the management alternatives to a set of operating models to achieve objectives, all features that were identified at previous stakeholder workshops. The group will receive a short status report on applications for interested parties to develop and lead two online deep-dive workshops and one plenary meeting during August to mid-September. Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
